

MAURICI ABAD GUTIERREZ

STUDENT - SOFTWARE ENGINEER
in 3rd Year

PROFILE

I'm a student of Computer Engineering in Barcelona. I'm a creative person with great ideas and self-demanding. I work better in a team. Also I adapt quickly and learn fast.

EXPERIENCE

At my own

Self-Taught

GitHub: github.com/mauriciabad

I've made several projects to learn new technologies, such as Web/Android Apps, Internet Of Things, UI/UX design principals, Photo/Video editing and programming Languages/Tools.

I've made three projects, one for the agency and two for the clients. One was a migration from MailChimp API 2.0 to 3.0 for the agency platform.

The others were an email scrapper and started a brand new online CRM made with PHP for a real estate agency.
